EXPLANATORY NOTE

This is the second index volume of SURGERY, GYNECOLOGY AND OBSTETRICS. All original contributions, editorials, biographical and historical sketches that have been published during the twenty years, July, 1925, to July, 1945 (Volumes 41-80), together with all collective reviews that have appeared in the INTERNATIONAL ABSTRACTS OF SURGERY, are carefully indexed and cross-indexed to provide ready access to this great volume of material. The year, volume, and inclusive pages for each reference are given in the order named.

I A S indicates reference to collective reviews that have appeared in the INTERNATIONAL ABSTRACTS OF SURGERY.

Supp. refers to special numbers of the journal not paged with the regular issues.
